* This free pattern is intended for personal use only. Please do not copy, redistribute, or sell this pattern. Eeyore is the intellectual property of Disney. So I would advise you not to sell items from this pattern without permission.

-Sew the eyes on first.

-Position the left and right eye, and make sure that the sequins line up, and are not crooked. The bottom of the white portion of the eye is 4 rows up from the muzzle, and both eyes have 7-8 stitches between them. Sew the white portions of the eyes first. Make sure that you sew the eyes to the front of Eeyore's face only, and don't go through to the back of the head. Next sew the black portion of the eye in place, making sure to keep the sequin straight, and no loose yarn ends or monofilament is protruding around the edges of the eye. Then sew the brown portion of the eye.

-Next sew on the nostrils:

-Facing Eeyore, form an imaginary line down along the inner portion of the right eye, 6 rows down on the white muzzle portion, *come up with your tapestry needle, and the brown yarn, from the wrong side of Eeyore's face, go over one stitch, and down two rows. Tie a knot, on the wrong side. Repeat from * one more time. Now, form an imaginary line down along the inner portion of the left eye, 6 rows down on the white muzzle portion, *come up with your tapestry needle, and the brown yarn, from the wrong side of Eeyore's face (six stitches over from the top of the other nostril), angle towards the other nostril, 1 stitch over, and 2 rows down. Tie a knot, on the wrong side. Repeat from * one more time.

-Making the mouth:

-Use your black yarn. With Eeyore facing you, with the top right nostril as a guide, go 3 rows up, and 4 stitches to the right, come up from the wrong side with your tapestry needle. With your black yarn, go up one row, and 2 stitches to the right, tie a knot on the wrong side. Go down one row, and 2 stitches to the right, come up from the wrong side with your tapestry needle. Go up one row, and 2 stitches to the left, which will complete the right top curve of Eeyore's smile. Place 2 yarn markers: One yarn marker 2 rows up from the Magic circle, the other yarn marker should be symmetrical with the very top portion of the other curved portion of the smile (on the opposite side). Going down 3 rows at a time with your black yarn, go towards the yarn marker in the center of the smile (2 rows up from the magic circle), and then go up towards the other top curve of the left curved portion of the smile. You should be forming a large "U" shape. Then to form the top curve of the left curved portion of the smile: Go 2 stitches to the right, and down one row. Go back to the center, where you started, then go over two stitches to the left, and down one row, and then back to the center where you started. The left curved portion of the smile should be complete. Tie a knot on the wrong side. Use the picture on page 5 as a guide.

-Sewing the eyebrows on:

-One row above Eeyore's eyes. Line up the right side of the eyebrow with the outer portion of Eeyore's eyes, and the left side of the eyebrow with the inner portion of Eeyore's eyes. Make sure that your eyebrows are symmetrical (the same on both sides). Again, use the picture on page 5 as a guide.

Pattern by Helen Brady, inspired by Disney's pattern.
